Simplicity and Modularity

With Sachi M1, three elements make one design

Enjoying Outdoor cooking

The M1 kitchen system has a purist and straight line design. Using aluminium as the main material, but also stainless steel and wood in selected colours. Its design and construction enhances the people to focus on enjoying, living and sharing both indoors and outdoors.

Sachi M1 kitchen is made up of three elements. The workbench, the worktop modules and the cabinets. It's possible to choose between wall mounted or free standing and decide the dimension between 3-8 Modules.

Built-in sink and wood board

Double gas hob and double charcoal barbecue

Purity and Essentiality

With Sachi M2 Three Modules make one living space

Living and sharing

The M2 kitchen system has a purist and ergonomic design. Using aluminium as the main material, but also stainless steel and wood in selected colours. It's design and construction enhances the people to focus on enjoying, living and sharing both indoors and outdoors.

Sachi M2 kitchen is made up of three structurally separated modules. The Island, the Wall module and the Tall unit.

The product is designed as a part of a larger system: the home... using straight purist lines to bring an experience where everything comes together in an ordered and clean way
